SPECIAL PERFORMANCE BOOSTER – MOCK 4

FEBRUARY 2024 COMPUTING 1 HR, 45 MINS

Do not open this booklet until you are told to do so. While you are waiting, read and observe the following instructions carefully. Write your name and index number in ink in the spaces provided above.

*This booklet consists of two papers; **I** and **II**. Answer Paper **2** which comes first in your answer booklet and Paper **1** on your Objective Test answer sheet. Paper **2** will last for **1** hour after which the answer book let will be collected. Do not start Paper until you are told to do so. Paper **1** will last 45 minutes.*

VERY IMPORTANT INSTRUCTIONS

1. *Read through the questions, brainstorm and plan your answers before you finally answer them. This is one of the good ways to manage your time in an exam and to do well.*
2. *Write clearly, use simple expressions and provide the best answers possible.*
3. *Write answers that provide additional information. If you just list answers or provide one to three worded answers, your will fail the paper.*
4. *Do well to explain your answers to help earn full marks. Check your units of measurement, spellings, grammar and read over your work before submitting.*
5. *Write question numbers boldly, start every new major question (answers) on a new page.*
6. *Do not rewrite the full question before answering. Only write the question number.*
7. *Show workings in all instances in section B if the question involves calculations.*

This paper consists of two sections: A and B. Answer questions 1 in section A and any other two questions in section B. All questions carry equal marks. Answer all the questions in the spaces provided in this question paper.

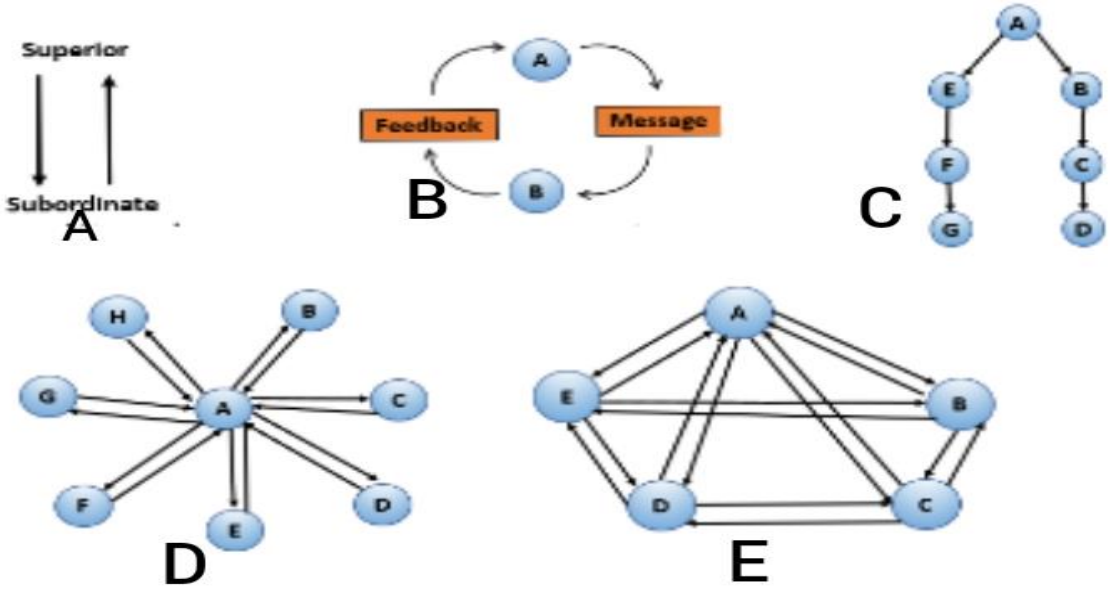

PAPER 2 - SECTION A

[24 MARKS]

Answer Question 1 (compulsory)

QUESTION 1

The diagram below shows different communication networks. Use them to answer the questions follow.

(a) (i) Identify the name of the networks labelled A, B, C, D and E. (5 marks)

(ii) Define computer network. (2 marks)

(iii) State four types of computer network. (4 marks)

(b) (i) State two disadvantages of Electronic Learning. (2 marks)

(ii) Mention four basic activities of online banking. (4 marks)

(c) Use the diagram below to answer the questions that follow.

(i) Identify the image shown above. (1 mark)

(ii) State two features of the image shown above. (2 marks)

(d) State four advantages of partitioning Hard Disk. (4 marks)

SECTION B -[36 MARKS]

GENERAL KNOWLEDGE IN COMPUTING

Answer only three questions from this section. All questions carry equal marks.

QUESTION 2

(a) (i) Give two examples of portable computer devices. (2 marks)

(ii) State three unique features of fifth generation computers. (3 marks)

(b) (i) State three examples of storage devices that use flash memory. (3 marks)

(ii) Explain the concept of word processing. (2 marks)

(c) List two examples of word processing softwares. (2 marks)

QUESTION 3

(a) Write the full meaning of the following acronyms.

i. OCR
ii. RFID
iii. PIN
iv. OMR (4 marks)

(b) (i) Give two uses of tables in MS Word. (2 marks)

(ii) State two differences between HDD and SSD. (4 marks)

(c) List two characters that are not allowed in file naming conventions. (2 marks)

QUESTION 4

(a) (i) State three best activities users should practice in order to prevent computer related issues. (3 marks)

(ii) State two types of network storage. (2 marks)

(b) (i) What are assistive technologies? (2 marks)

(ii) Give three examples of assistive technologies. (3 marks)

(c) Define cloud computing. (2 marks)

QUESTION 5

(a) State two negative effects of using a smartphone. (2 marks)

(b) (i) What is file fragmentation? (2 marks)

(ii) State two advantages of using social media. (2 marks)

(c) (i) Give three uses of parallel processing. (3 marks)

(ii) Explain the term holographic storage. (3 marks)

PAPER 1 - OBJECTIVE TEST 45 minutes

Answer All Questions

Each question is followed by four options lettered A to D. Find the correct option for each question and shade in pencil on your answer sheet the space which bears the same letter as the option you have chosen. Give only one answer to each question.

1. The basic unit of information in quantum computing is .....
   A. bit.
   B. qubit.
   C. byte.
   D. word.

2. What can be done to protect learners' privacy and security when they are using online services?
   A. Educate learners about online safety and privacy.
   B. Use secure encryption protocols to protect learners' data.
   C. Implement strong security measures to protect online services from unauthorized access.
   D. All of the above

3. The most powerful quantum computer in the world is the
   A. Google Sycamore
   B. IBM Quantum One
   C. D-Wave Advantage
   D. iMac.

4. Which of the following is a type of artificial intelligence?
   A. Machine learning
   B. Natural language processing
   C. Expert systems
   D. All of the above

5. Mr. Musah wants to print receipts of purchase and labels for his products. Which output device would you recommend he use?
   A. Braille printer
   B. Impact printer
   C. Thermal printer
   D. Wax printer

6. Which action is not recommended for responsible use of speakers and earpieces?
   A. Adjusting the volume to a comfortable level.
   B. Sharing earpiece with others.
   C. Listening to audio at a very high volume.
   D. Taking breaks to rest your ears.

7. An input device which is typically used by artists and designers is called .....
   A. magnetic card reader.
   B. optical card reader.
   C. QR code reader.
   D. graphic tablet.

8. Al software in fifth-generation computers can be applied in .....
   A. writing in books
   B. tracking truants
   C. self-driving cars
   D. trading in markets

9. To read the magnetic stripe on the back of a credit card, one needs the .....
   A magnetic card reader
   B. optical card reader
   C. graphic tablet.
   D. RFID reader.

10. This printer is used by blind and visually impaired people to access information in print.
   A. Braille printer
   B. Impact printer
   C. Inkjet printer
   D. Thermal printer

11. Which of the following is not a type of flash memory storage system?
   A. Memory card
   B. Cloud storage

C. SIM card
D. CD-ROM

12. A good way to protect your files from an unauthorized access is .....
A. using strong passwords for your computer and online accounts.
B. using file encryption software to delete your sensitive files.
C. storing your files on an unsecure cloud storage service.
D. using easy and guessable passwords.

13. Which of the following is not a technology that can be used to help people with mobility and sensory impairments?
A. Voice recognition software
B. Screen reader software
C Screen enlargement software
D. Mini mobile phones

14. The type of storage device that uses magnetic memory to store data is called .....
A. hard disk drive.
B. USB flash drive.
C. solid state drive.
D. flash memory card

15. Which of the following is not a benefit of using flash memory storage systems over traditional hard disk drives?
A. They are faster
B. They are fragile
C. They are more durable
D. They consume less power

16. Which of the following is a common use for embedded flash memory?
A. To store data on smartphones
B. To retrieve stored data on tablets.
C. To display information on phones.
D. To store and access data on digital cameras

17. What icon is used to find files, apps, and settings on your computer?
A. Search
B. Share
C. Start
D. Devices

18. Which of the following is not a feature of the Settings icon in the Charms bar?
A. Change computer wallpaper
B. Change your computer's screen resolution
C. Change your computer's language
D. Install new apps

19. Which of the following file formats is not supported by file compression?
A. EXE
B. RAR
C. 7Z
D. ZIP

20. An output device used for prototyping and manufacturing is called .....
A. braille printer.
B. impact printer
C. inkjet printer
D. 3D printer.

21. One of the following is not a feature of fifth-generation computers.
A. Massive parallelism
B. Artificial intelligence
C. Natural language processing
D. Sequential processing

22. What is the best way to organize your files?
A. Create a folder structure with logical names for folders and files.
B. Store all of your files in a single folder
C. Use random names for folders and files
D. Create a folder for cach file.

23. Which of the following is not a good practice for file management?
A. Deleting old and unused files regularly
B. Creating backups of your files regularly
C. Storing all of your files in a single folder
D. Naming your files with logical names.

24. The input device used in retail stores to process payments is known as .....
A. graphic tablet.
B. magnetic card reader
C. optical card reader
D. QR code reader

25. Which of the following is not a portable computing device?
A. Desktop computer
B. Laptop
C. Tablet
D. Smart watch

26. Which of the following portable computing devices is not the best for reading books and watching videos on the go?
A. Laptop
B. Tablet
C. Smart watch
D. Mobile phone

27. How often should you take breaks from bulk work?
A. Every 20-30 minutes.
B. Every hour.
C. Every two hours.
D. When you feel tired or stressed.

28. Which of the following is not a good posture tip for sitting at a computer?
A. Keep your back straight.
B. Keep your shoulders relaxed.
C. Keep your head tilted forward.
D. Keep your feet flat on the floor.

29. Why is it important to keep your monitor at eye level?
A. To increase neck strain.
B. To improve focus.
C. To reduce eye strain.
D. To enhance wrist pain.

30. How can screen protectors or spectacles help control the amount of light received by our eyes?
A. By increasing the brightness of the screen.
B. By reducing glare and filtering harmful blue light.
C. By changing the colour of the light.
D. By making the screen completely dark.

31. When using earpieces or headphones, which of the following is essential for protecting your hearing?
A. Listening at the highest volume setting.
B. Using noise-cancelling features.
C. Keeping the volume at a safe level.
D. Ignoring the volume altogether.

32. In Microsoft Word, where can you find the Tables group for inserting and formatting tables?
A. Home tab
B. Insert tab
C. Page Layout tab
D. Design tab

33. What is the purpose of using hyperlinks in a document?
A. To add page numbers
B. To create non-linear presentations
C. To change the font colour.
D. To adjust line spacing.

34. The appropriate device for reading and writing data to flash memory cards is .....
A. flash memory card reader.
B. USB flash drive
C. solid state drive
D. hybrid hard drive

35. What device is used to convert hardcopy images and documents into digital form?

A. Keyboard
B. Mouse
C. Touchpad
D. Scanner

36. Which type of optical disc is used for permanent data storage and cannot be rewritten?

A. CD-RW
B. DVD-R
C. CD-ROM
D. DVD-RW

37. What is the purpose of taskbar buttons in Windows?

A. Displays live weather updates.
B. Launching virtual assistants
C. Quick access to open programs
D. Displays the date and time.

38. Which of the following is not a feature of the Start icon in the Charms bar?

A. Open the Start screen
B. Close all open apps
C. Search for files, apps, and settings
D. Shut down your computer

39. HDD is an acronym for

A. Hard Disc Drive
B. Hyper Disc Device
C. Hard Disk Drive
D. Hyper Digital Device

40. Which of the following is the file extension for MS Excel

A. .exe
B. .docx
C. .xlsx
D. .mp4
