I.C.T 2
Objectives and Theory

INFORMATION AND COMMUNICATIONS TECHNOLOGY 1HR 45 MINS

1.The operation whereby the computer manipulates data to produce information is known as a) Processing b) Recording c) Retrieving d) Capturing

2.Which stage of the information processing cycle requires much use of the keyboard?
a) Output b) Storage
c) Input d) processing

3.Which stage of the information processing cycle makes it possible for people without computer have access to Information.
a) Input b) Output
c) Distribution c) Processing

4.Which of the following is relevant at the storage stage of the information processing cycle?
a) Keyboard b) Mouse
c) Monitor d) Hard disk

5.Information in a computer can be put in a form that is visible and tangible known as
a) Softcopy b) Hardcopy
c) Document d) folder

6.Which of the following is not a source of information?a) People b) Radio
c) Library d) Photocopy machine

7.The operation of the computer that makes it possible to keep information for future use is called?
a) Input b) Output
c) Processing d) Storage

8.What method does the computer use to create information? a) Information cycle
b) Processing cycle c) Data and information
d) Information processing cycle

9.Data and information can be put in any of these forms except a) Sound b) Picture
c) Knowledge d) Text

10.The following devices belong to the same class except ……. a) Scanner b) Printer
c) Keyboard d) Mouse

11.Which of the following are considered input devices?
a) Keyboard and printer b) Mouse and scanner c) Monitor and scanner d) Mouse and printer

12.Which of the following devices is considered the brain of the computer?
a) Random access memory b) mother board
c) Central processing unit d) Read only memory

13.The pen drive is connected to the computer through a connector called

2022 MOCK SAMPLE QUESTIONS INFORMATION AND COMMUNICATIONS TECHNOLOGY

www.ghanaeducation.org

a) COM port b) USB port c) Pen drive port
d) VGA port

14.The instructions within the computer that tell the computer how to process data into information is termed as
a) Hardware b) Fireware
c) Software d) Humanware

15.Which devices does the computer use to output sound? a) Hard disk drive b) loud speakers
c) Scanner d) Printer

16.Which of the following is a type of monitor?
a) Television b) Video
c) Plat panel d) Impact printer

17.Which of the following is not a storage device?
a) Mother board b) Flash drive
c) Floppy disk c) Optical disk

18.Which of the following is not a component in the system unit?
a) CPU b) Mother board
c) Video card d) Pen drive

19.The following are types of mouse except
a) Mechanical mouse b) Radar mouse
c) Optical mouse d) Laser mouse

20.We use the ---------- scroll or roll pages
a) left button b) Right button
c) Centre wheel d) Left hand button

21.The heart of the computer is the ----------
a) keyboard b) Monitor
c) Joystick d) CPU

22.Which of the following displays data or information? a) folder b) memory
c) monitor d) hard disk

23.Capital letters are also know as ----------
a) lower case letters b) Ctrl B
c) upper case letters d) all letters

24.A menu contains a list of ----------
a) Questions b) food
c) answer d) commands

25.An application window is reduced to an icon by clicking …… a) maximize b) minimize
c) help d) restore

26.One common layout of the keyboard is
a) cursor b) number c) qwerty d) ghat

27The term CPU refers to ……
a) center of peripheral b) central processing unit
c) computer processing unit
d) computer program unit

28. All diskettes must be …… before they can store data a) retrieved b) named
b) formatted d) saved

29.Which of these is a secondary storage device?
a) magnetic disk b) magnetic tape
c) optical disk d) thesaurus

30.The short cut key for help is ……..
a) F1 b) F2 c) Crt – b d) Alt + U

31.The short cut key for underline is the ……
a) shift + U b) ALT +U c) Crtl +U d) Enter +U

32. When you want to correct a mistake while typing, you will go to the
a) file menu b) edit menu
c) view menu d) colour menu

33.When you want to open a folder, you will go to the
a) file menu b) edit menu
c) view menu d) colour menu

34.Which of the following is not a storage device ?
a) memory b) floppy disk
c) pen drive d) scanner

35.There are …… types of computers
a) ten b) twelve c) eight d) four

36.Which of the following keys on the keyboard delete letters at the left part of the cursor

a) delete b) back space key c) space bar d) shift key

37.The following can be found on the menu bar of Microsoft word except ……..

a) edit b) open c) view d) format

38.The part of the computer that performs any task assigned to the computer is called ……

a) Keyboard b) mouse c) processor d) monitor

39. To close a program, you click on ……

a) View menu b) close button

c) Restore button d) minimize button

40.Which of the following gadgets is more likely to emit radiation?

a) Hard disk b) Mobile phone

c) Keyboard d) Speaker

SECTION B

Answer THREE questions only from this section

1. Define the following?

a) Data b) Information

i.What does it mean for data to be described as reliable.

ii.What are the main hardware components of a personal computer.

iii.Define software?

iv.What is package software? Give two examples.

v.What is the relationship between hardware and software. (20marks)

2.List the steps involved in turning on the computer. (20marks)

i.Explain the relevance of removing all storage devices from the computer system unit before switching the computer on.

ii.Define what a health hazard is.

iii.How is the computer responsible for backaches and wrist aches.

iv.Give two health hazards associated with the television

3.Which devices take the lead in making information accessible . (20marks)

i.How do storage devices help students in their education.

ii.Describe the steps used to change the computer wallpaper

iii.Define the following

a.Icon b. A task bar

iv.List four technologies used to access the internet.

4.What is a window? (20marks)

i.Describe the three element you are likely to see in an opened window

ii.Explain why files need to be re-named

2022 MOCK SAMPLE QUESTIONS INFORMATION AND COMMUNICATIONS TECHNOLOGY

iii.Identify the steps involved in re-naming a file

iv.Explain the relevance of breaking copy right laws. What is copy right infringement?

.....

3.Which devices take the lead in making information accessible . (20marks)

i.How do storage devices help students in their education.

ii.Describe the steps used to change the computer wallpaper

iii.Define the following

a.Icon b. A task bar

iv.List four technologies used to access the internet.

4.What is a window? (20marks)

i.Describe the three element you are likely to see in an opened window

ii.Explain why files need to be re-named

iii.Identify the steps involved in re-naming a file

iv.Explain the relevance of breaking copy right laws. What is copy right infringement?
